Surface Material

TFL

TLF comes in our standard finishes and it offers the best price point.

HPL

HPL offers increased durability with a wide range of finish options.

Powder Coated MDF

Powder coated MDF creates a seamless look, softened edge and a fully sealed finish. It eliminates the need for secondary edge treatments that are often the failure point of a surface.

Butcher Block

Butcher block is a solid material that can be sanded, refinished and revitalized over the years.

Richlite

Richlite is made from recycled craft paper and phenolic resin that combine to create a solid surface product. It is an exeptionally impact resistant and durable material.

Student Desk

The Makr Student Desk features a round tubular design with an incorporated under surface frame. It comes in several different surface finishes and it is sized to accommodate a wide verity of chair sizes while maintain a competitive price point.

Simple Table

The Makr Simple Table features a round post leg design. These legs are well suited to a verity of table shapes and sizes and they can be specified with pin adjustment, casters, or in a wheelbarrow configuration.

Heavy Duty Desk

The Makr Heavy Duty Desk features a square leg design and offers a full metal surface frame for added strength and durability. It is sized for double seating and worktable applications.

Heavy Duty Tables

The Makr Heavy Duty Table features a square leg design and offers a full metal surface frame for added strength and durability. It is available in both 4 leg and 6 leg configurations and offers larger table sizes.

H Leg Tables

The Makr H Leg Tables feature a square leg design and an integrated foot-bar to define user space and prevent racking. A wide range of table sizes make this piece suited to many different applications.
