MOMENT Table Power Offering

Notes:

All multi-unit configurations (perimeter power / inline utility power / or double in-surface power) are accomplished using Byrne Electric's Pattern system or our Built in USB C charging system. This mean all individual power units or ports are chained together and a single cord (infeed) powers the whole system.

Power Unit	Description	Perimeter*	Single In-Surface	Double In-Surface**
Built in 100 Watt USB C	*4 port: 1 port per leg*	1950	NA	NA

This power solution is proprietary to Makr Furniture and the Moment Tables & Desks. It integrates a 100-Watt USB C charging port into each table leg. This is enough power to charge devices ranging from cell phones to full sized laptops. In addition to power, hardware data, peripherals, and displays can pass through these ports with the use of data Hubs. Makr can work with your technology needs to help specify the proper Hub for your application. A data hub is not included in this price.
